

Empowering community coalitions for effective prevention planning: prospects of the “Communities That Care – CTC” approach in Europe

„Turvaliste kogukondade Eesti“

**Conference on community safety, crime prevention
and networking**

24th of May 2016 in Tallinn, Estonia

**Frederick Groeger-Roth
Crime Prevention Council of Lower Saxony /
Ministry of Justice of Lower Saxony, Germany
frederick.groeger-roth@mj.niedersachsen.de**

"My question is: Are we making an impact?"

AGENDA

1. the CTC approach

2. CTC transfer in Germany

3. CTC in Europe

Why using a community planning system?

- seldom comprehensive prevention strategies on local level, more often loose connected single approaches
- need for infrastructure and support systems for mainstreaming of prevention measures
- incidental choice of proven prevention programmes, rarely coherent strategies for scaling-up effective programmes
- local partnerships and community-based networks are essential, but they need systematical support for effective working methods

Communities That Care:

is a tested community planning system

- to prevent multiple problem behaviours in youth (violence, delinquency, substance abuse, school failure and depression / anxiety)
- by tackling common underlying risk and protective factors
- through community coalitions and evidence-based programmes (Hawkins, Catalano et al. 1992, Hawkins et al. 2002)

implementation model:

- providing instruments, training and technical assistance for community prevention coalitions to adopt a prevention science approach

CTC – implementation strategy:

- mobilizing community stakeholders and empowering community coalitions for strategic prevention planning (Phase 1 and 2)
- need and resource assessment: measuring profiles of risk and protection at community level (CTC - Youth Survey), focus on the most pressing r/p factors and assessment of existing resources and services (Phase 3)
- matching of effective prevention programmes to community needs, developing measurable goals, community action plan (Phase 4)
- monitoring and evaluation of results of programme implementation, adjustment of action plan (Phase 5)

**Science-based
Prevention Planning
on Community Level**

Assess readiness
and mobilize a local
coalition of key
stakeholders

Key Leader and
Community
Board Training

Risk Analysis
Training

Collect local data on
risk and protective
factors and identify
priorities

Ressource
Analysis Training

Analyse prevention
service ressources,
gaps and
duplications

Select and
implement proven
programmes that
target priority factors
and service gaps

Community Action
Plan Training

Re-assess risk /
protective factors
and youth
behavioural
outcomes

Action Plan
Implementation
Training

Risk and Protective Factors

Riskfactors

like „family conflict“
are predictive for later problem
behaviours

Protective Factors

like „family bonding“ are buffering
the impact of risk factors and are
predictive for less problem
behaviours

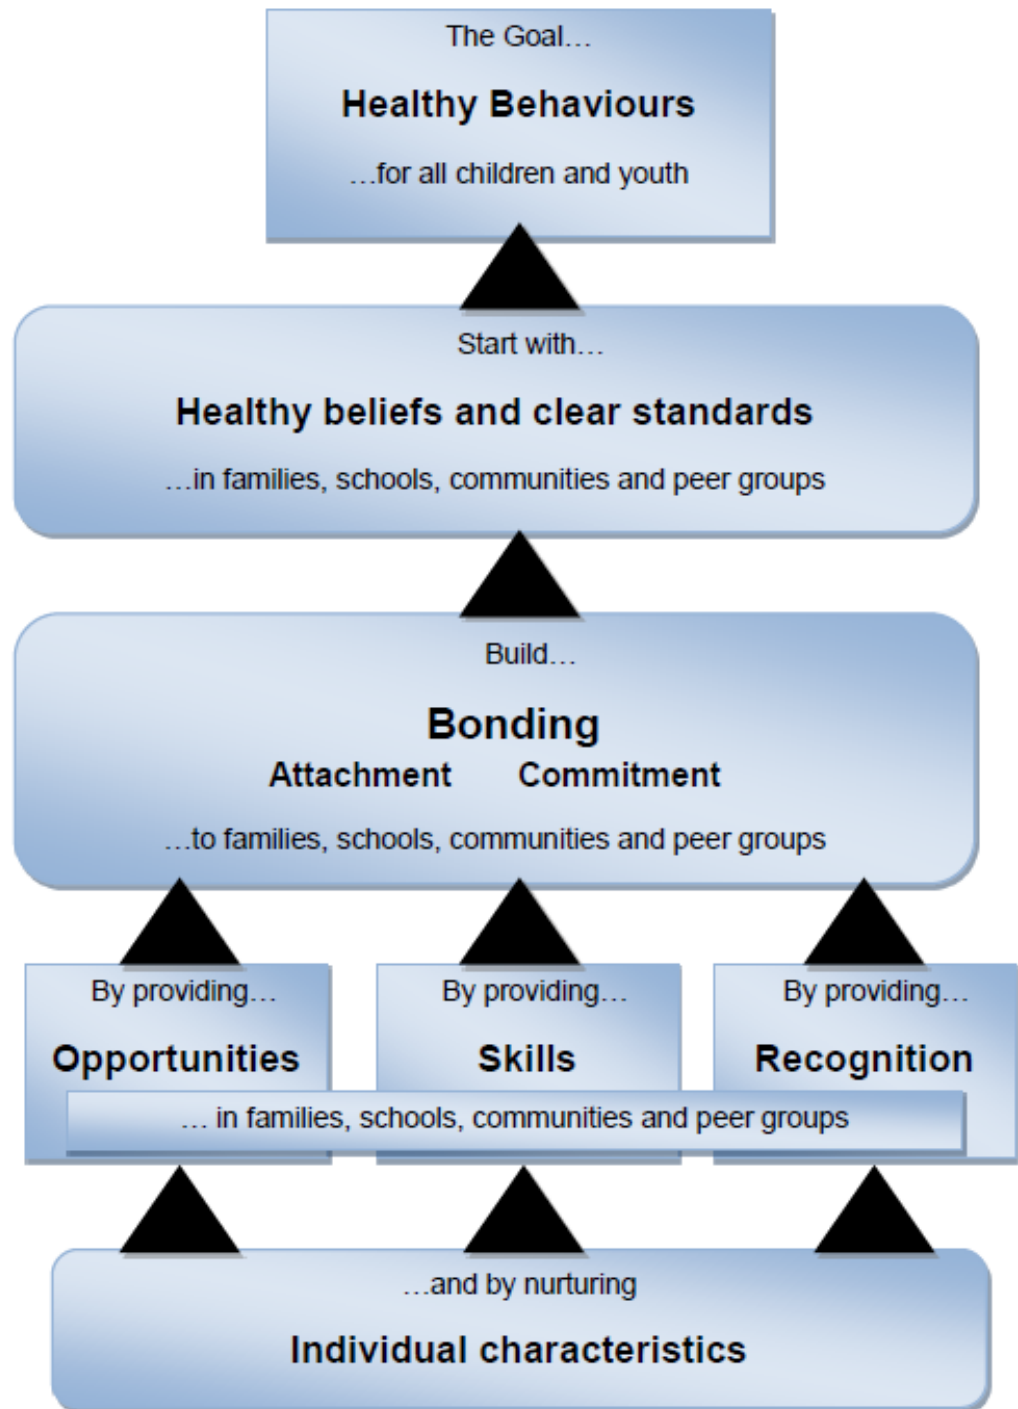

<i>Risk Factor Matrix</i>	Violence	Delinquency	Substance Abuse	School Dropout	Teenage Pregnancy	Depression and Anxiety
Family						
Family History of Problem Behaviour	✓	✓	✓	✓	✓	✓
Family Management Problems	✓	✓	✓	✓	✓	✓
Family Conflict	✓	✓	✓	✓	✓	✓
Favorable Parental Attitudes and Involvement in the Problem Behaviour	✓	✓	✓			
School						
Early and Persistent Antisocial Behaviour	✓	✓	✓	✓	✓	✓
Academic Failure Beginning in Late Elementary School	✓	✓	✓	✓	✓	✓
Lack of Commitment to School	✓	✓	✓	✓	✓	
Peers and Individual						
Rebelliousness		✓	✓	✓		
Friends Who Engage in the Problem Behaviour	✓	✓	✓	✓	✓	
Favorable Attitudes Towards the Problem Behaviour		✓	✓	✓	✓	
Early Initiation of the Problem Behaviour	✓	✓	✓	✓	✓	
Constitutional Factors	✓	✓	✓			✓
Community						
Availability of Alcohol and Drugs	✓		✓			
Availability of Weapons	✓	✓				
Laws and Norms Favorable Towards Problem Behaviour	✓	✓	✓			
Media Portrayals of Violence	✓					
Transitions and Mobility		✓	✓	✓		✓
Low Neighbourhood Attachment / Community Disorganisation	✓	✓	✓			
Extreme Economic Deprivation	✓	✓	✓	✓	✓	

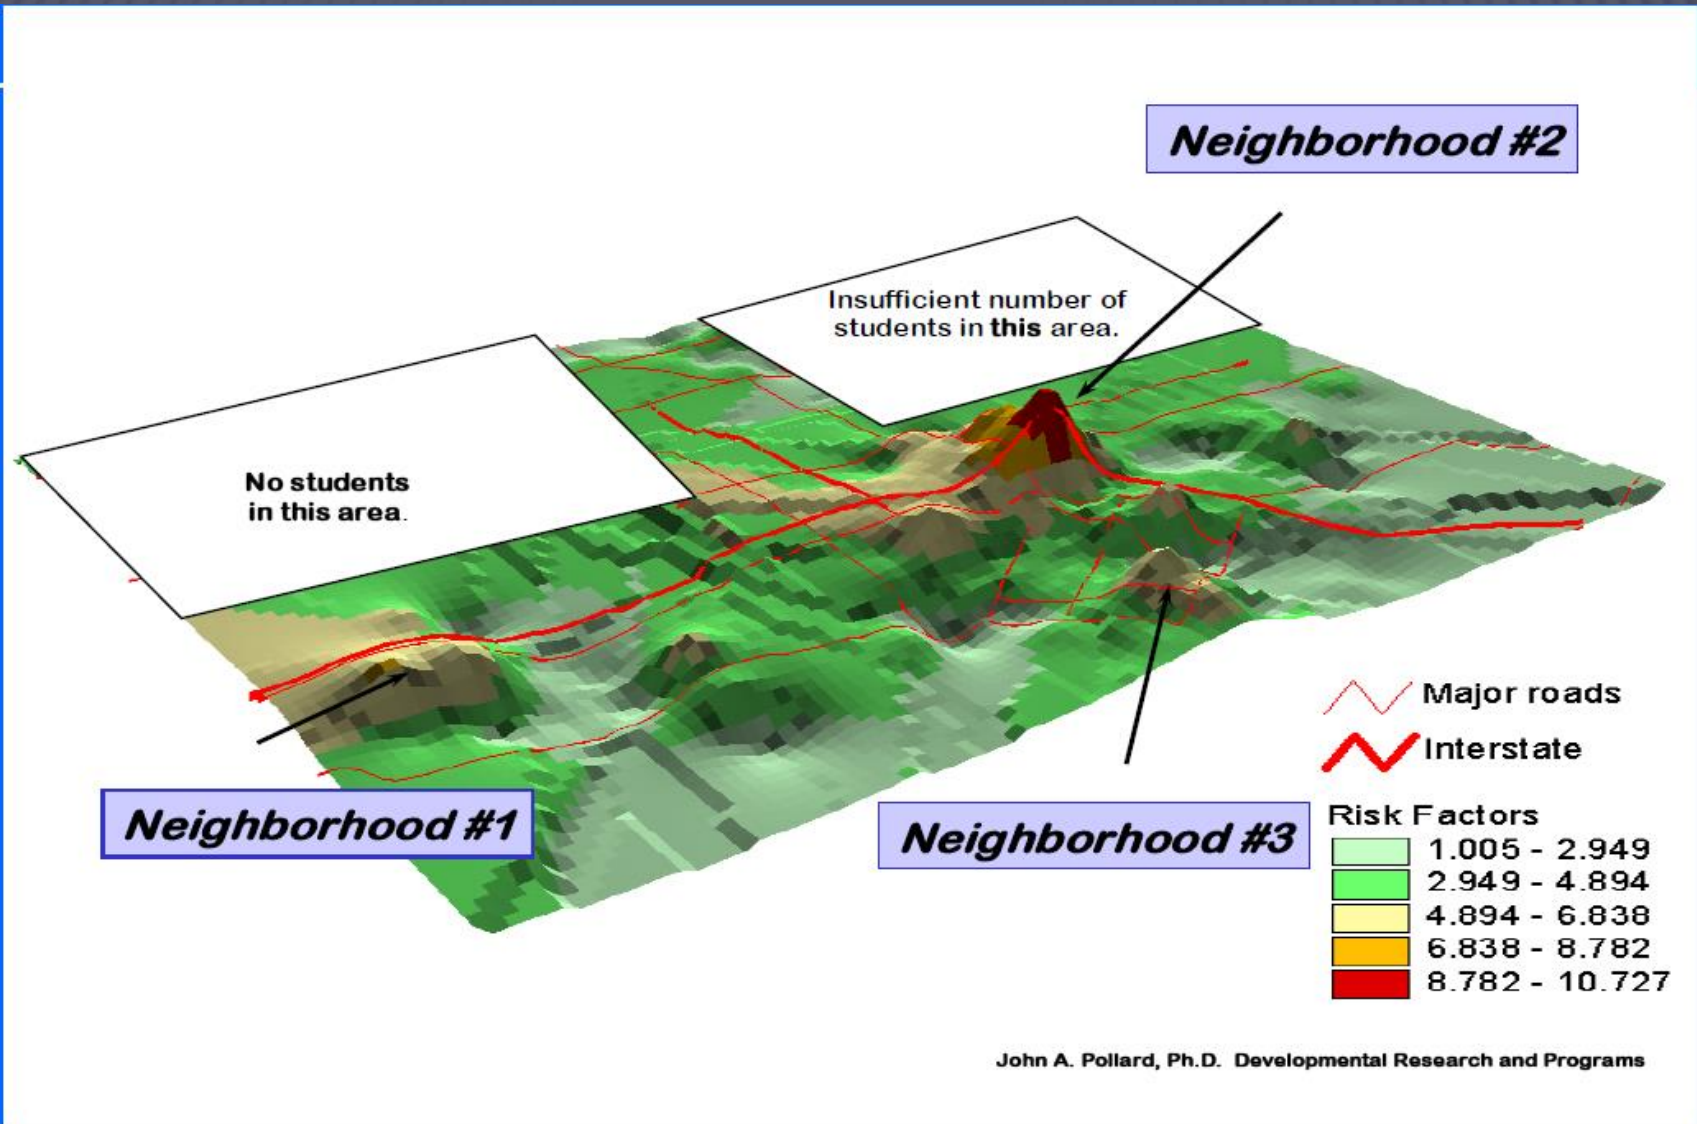

Social Development Strategy:

Enhancing common protective factors in all socialising units

(Hawkins / Catalano 1996)

Communities are facing different profiles of risk and protection:

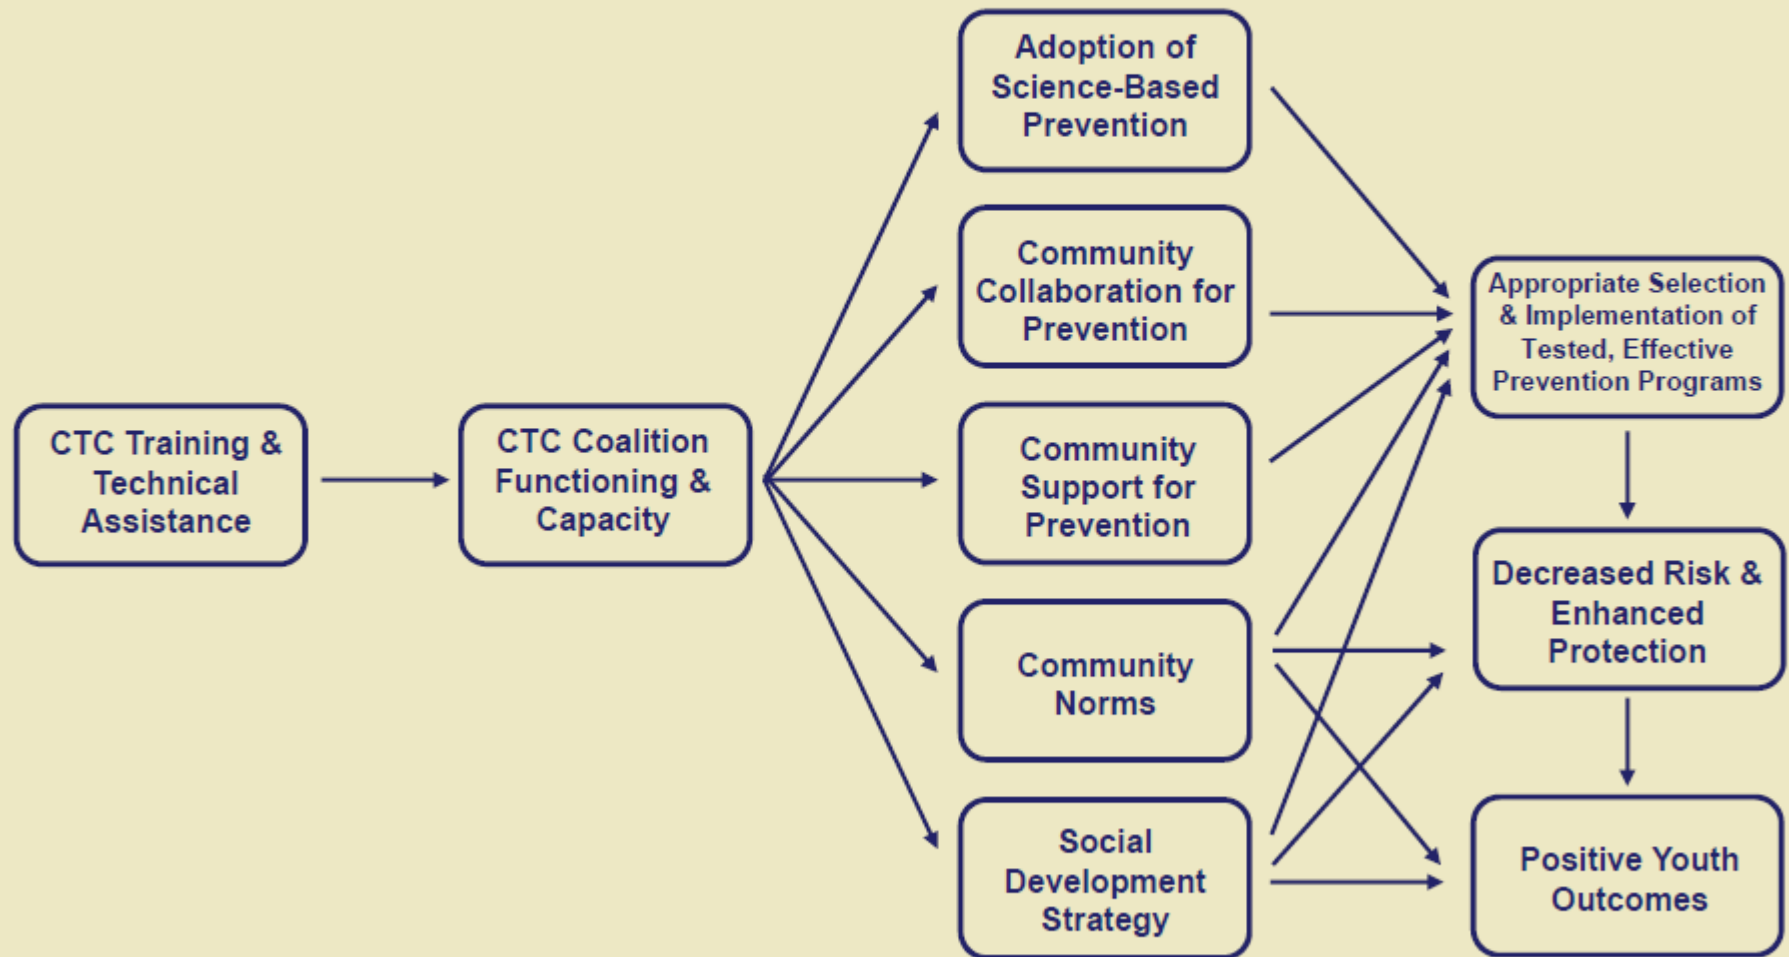

Example of CTC Youth Survey results, family risk domain:

Menu of Proven Effective Programmes

			Protective Factors					
	Risk Factor Addressed	Program Strategy	Healthy Beliefs & Clear Standards	Bonding	Opport.	Skills	Recog.	Developmental Period
School Domain	Early and Persistent Antisocial Behavior	Early Childhood Education	✓	✓	✓	✓	✓	3-5
		Parent Training	✓	✓	✓	✓	✓	prenatal-10
		Family Therapy	✓	✓	✓	✓	✓	6-18
		Classroom Organization, Management and Instructional Strategies	✓	✓	✓	✓	✓	6-18
		Classroom Curricula for Social and Emotional Competence Promotion	✓	✓	✓	✓	✓	6-14
		School Behavior Management Strategies	✓		✓		✓	6-14
		Afterschool Recreation Programs	✓	✓	✓	✓	✓	6-10
		Mentoring	✓		✓		✓	11-18
	Academic Failure Beginning in Late Elementary School	Prenatal/Infancy Programs	✓	✓	✓	✓	✓	prenatal-2
		Early Childhood Education	✓	✓	✓	✓	✓	3-5
		Parent Training	✓	✓	✓	✓	✓	prenatal-10
		Organizational Change in Schools	✓	✓	✓	✓	✓	6-18

CTC Logic Model

CYDS Timeline: Youth Outcomes

AGENDA

1. the CTC approach

2. CTC transfer in Germany

3. CTC in Europe

Community Crime Prevention in Germany

Core elements of local crime prevention bodies (in theory):

- facing the local conditions
- multi-agency orientation, broad networking
- involvement of active citizens

But...

- lack of strategic partnerships among different agencies - mainly project-oriented networking
- mostly “model / pilot-project” efforts - difficulties in mainstreaming of successful approaches in social services delivery
- lack of evidence-base for many local activities
- despite of an increasing number of proven prevention programmes: no large-scale dissemination

Lower Saxony:

- State Capital: Hannover
- Size: 47,624.22 km²
- Population: 7,973,800

State of Lower Saxony

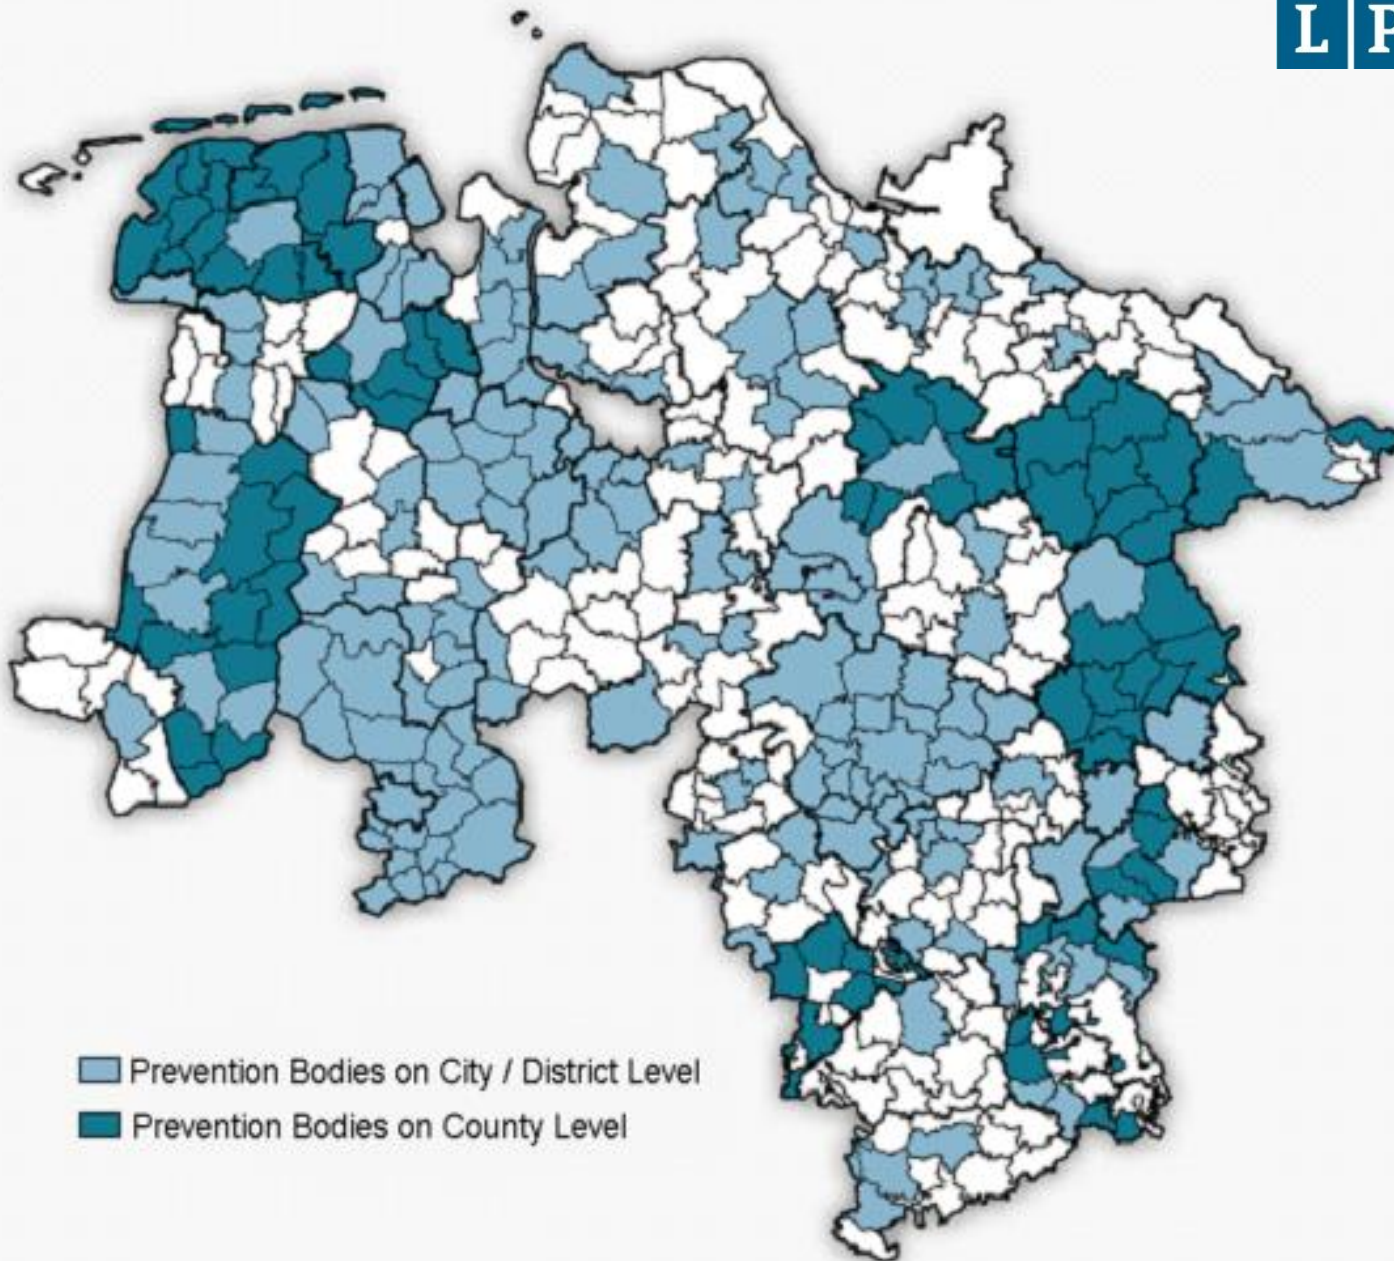

~ 200 Local Crime Prevention Bodies in Lower Saxony

L P R

Landespräventionsrat
Niedersachsen

Current CTC Status in Germany

- pilot project in 3 communities (2009 – 2012): CTC – process was feasible (process evaluation: Schubert et al. 2013)
- CTC – Youth Survey: adapted and state-wide use in Lower Saxony 2013 + 2015 ff.
- online - database of effective and promising prevention programmes was developed (“Green List Prevention”, www.gruene-liste-praevention.de)
- new CTC – sites in urban and rural settings in Lower Saxony since 2013
- second evaluation study shows promising results (Jonkman 2015)
- transfer to other states (Saxony) and cities (Augsburg) in Germany

AGENDA

1. the CTC approach

2. CTC transfer in Germany

3. CTC in Europe

Main issues for transfer of CTC in the European context

- 1) generalizability of the underlying r / p factor - model
- 2) number and quality of prevention programme evaluations, availability of menus and databases about effective programmes
- 3) legal, political and structural differences, e.g. prevention service planning and delivery

Addressing this issues:

EU-funded project „Making CTC work at the European level“ (2013 – 2015):

Partners from Austria, Croatia, Cyprus, Germany, The Netherlands, Sweden and United Kingdom

- 1) cross-national comparison of CTC – Survey results**
- 2) building up a European databank of effective and promising prevention programmes**
- 3) comparison of CTC evaluation results - developing a European CTC implementation guide**

Project Partners:

Austria: Institute for the Prevention of Addiction and Drug Abuse

Croatia: University of Zagreb

Cyprus: University of Cyprus

Germany: Crime Prevention Council of Lower Saxony

The Netherlands: Verwey-Jonker Institute, Seinpost Adviesbureau,
University of Leiden

Sweden: City of Malmö

UK: Dartington Social Research Unit

Chair of the Advisory Board: David Farrington, UK

Funding:

With the financial support of the Prevention of and Fight Against Crime Programme,
European Commission - Directorate-General Home Affairs

Working Structure and Results

Topic	Procedure	Main Results
1) CTC – Survey	cross – national comparison of CTC Youth Survey data in Europe	<ul style="list-style-type: none"> - similar relationships r/p-factors and behavioural outcomes in general, - limitations due to specific adaptations and measurement procedures in the respective countries <p>➤ upcoming book publication</p>
2) Effective Programmes	rating of available prevention programmes in Europe against standards of evidence	<ul style="list-style-type: none"> - overview about effective programmes in Europe - upcoming web-based databank <p>➤ see presentation by Nick Axford</p>
3) CTC - Implementation	analysis and comparison of CTC evaluation studies and implementation experiences	<ul style="list-style-type: none"> - overview about CTC implementation in Europe, favorable factors and challenges - sustaining local CTC initiatives is the main challenge in all countries <p>➤ upcoming European CTC Implementation Guide</p>

Thank you very much for your attention!
